***Claim Rejections - 35 USC § 102***

Claims 1, 4-6, and 8-15 are rejected under 35 U.S.C. 102(b) as being anticipated by US Pat. 5532456 (US'456).

Referring to Figs. 1-3 and col. 4, lines 6-61, US'456 discloses a heated food container with a humidity source 56, 58, 94 and air curtain 84, with temperature and humidity control, and the air stream flowing as well over the food items within the chamber.

Claims 1, 4, 6, 8-18, and 30-35 are rejected under 35 U.S.C. 102(b) as being anticipated by US Pat. 6369362 (US'632).

Referring to Figs. 1 & 2 and col. 4, line 58, through col. 5, line 45, US'632 discloses a heated food container with a humidity source 125 and air curtain with fan 121, which circulate the heated air to maintain temperature and humidity control, the air stream passing over the water source, and the air flowing as well over the food items within the chamber.

***Claim Rejections - 35 USC § 103***

Claims 2 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over US'456 in view of US Pat. Appl. 2002/0005686 (US'686).

The claims differ from US'456 only in calling for a portable oven. US'686 discloses a portable oven similar to that of US'456. It would have been obvious to adapt the portable feature of US'686 to the oven of US'456 to enhance its portability.

Claims 2, 7, and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over US'362 in view of US'686.

The claims differ from US'362 only in calling for a portable oven. US'686 discloses a portable oven similar to that of US'362. It would have been obvious to adapt the portable feature of US'686 to the oven of US'362 to enhance its portability.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over US'456 or US'362, in view of US Pat. 4038968 (US'968).

The claims differ from US'456 or US'362 only in calling for the access opening to be on the top side of the chamber. US'968 discloses a food access opening on the top side of a heating chamber (see Fig2) It would have been obvious to adapt the top opening position of US'968 to the chamber of either US'456 or US'362, to adapt the chamber for use in table-type food service devices.
